HL26R

BRIGHTEN YOUR TRAILS

Lightweight rechargeable trail running headlamp

Max 450 Lumens

HL26R

Fenix HL26R is an ultra lightweight rechargeable headlamp specifically designed for trail running. With built-in rechargeable Li-polymer battery, it can be charged through Micro USB port. Featuring spotlight and floodlight, dual switches for fast operation, plus the IP66 rated structure and the fully reflective headband, HL26R is competent for the complex environments of trail running and long distance hiking.

HL26R 450 Lumens

Lightweight rechargeable trail running headlamp

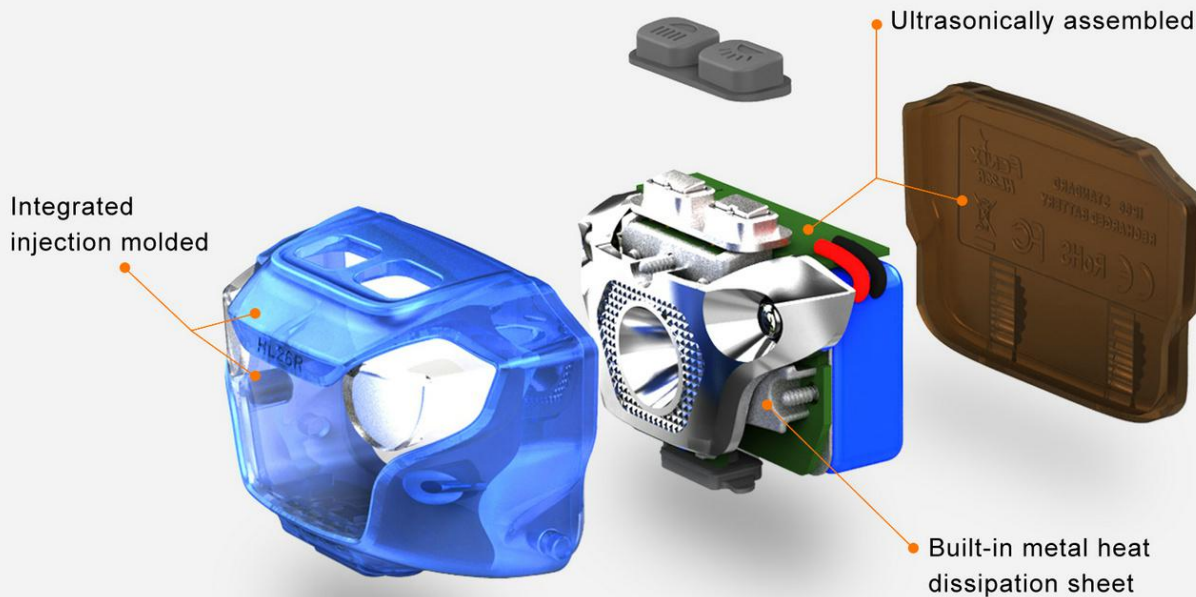

- Ultra lightweight design
- Choice of spotlight or floodlight
- Multiple outputs with impressive runtime
- Reflective and sweat-block headband
- Built-in Li-polymer battery, Micro USB rechargeable

ULTRA LIGHTWEIGHT DESIGN

Innovative integrated structure greatly decreases the volume and weight. HL26R is only 86 grams including headband and battery.

HL26R 450 Lumens

Lightweight rechargeable trail running headlamp

CHOICE OF SPOTLIGHT OR FLOODLIGHT

Spotlight is ideal for long distance vision during running;
floodlight is perfect for close-range lighting and emergency
usage.

MULTIPLE OUTPUTS WITH IMPRESSIVE RUNTIME

HL26R has three regular spotlight output levels. The runtime of Med mode can be up to 12 hours which perfectly meets the demand of whole night running.

Output	Runtime
130 Lumens	6 hours
70 Lumens	12 hours
30 Lumens	25 hours

450 LUMENS BURST MODE

In any situation, press the spotlight switch for 1.2s to activate the 450 lumens burst mode.

If no other action is taken after activating Burst mode, the headlamp will down-shift to the last used spotlight output level after 1 minute.

REFLECTIVE AND SWEAT-BLOCK HEADBAND

- Reflective lines around the whole headband surface help to enhance wearer's visibility to others and ensure safety.
- The silicone line on the inside guides sweat away from eyes and prevents headband from slipping.

POWER LEVEL INDICATION AND LOW POWER WARNING

HL26R 450
Lumens

Lightweight rechargeable trail running headlamp

With the lamp off, single clicking on the flood-light switch will light up indication LED's for 3 seconds. The more LED's light up, the more battery power remains.

When the power is low, with the lamp switched on, one of the indication LED's will flash as a charging reminder.

A close-up, high-action shot of a trail running headlamp (HL26R) mounted on a person's head. The headlamp is illuminated, casting a bright beam of light forward. The background is dark and blurry, suggesting a night or low-light environment. The headlamp has a black strap and a silver-colored body. The text "HL26R 450 Lumens" is overlaid in the top right corner, with "450 Lumens" in orange. Below it, the text "Lightweight rechargeable trail running headlamp" is written in a smaller font. In the bottom left corner, the text "IP66 RATED STRUCTURE" is written in large, bold, orange letters, followed by a description of its waterproof and dustproof capabilities and a note about the USB port.

PARAMETER TABLE

ANSI/PLATO FL1 STANDARD							
MODE	Spotlight Mode				Floodlight Mode		
	Burst	High	Med	Low	High	Low	SOS
OUTPUT	450 Lumens	130 Lumens	70 Lumens	30 Lumens	40 Lumens	4 Lumens	40 Lumens
RUNTIME	1h 30min *	6h	12h	25h	13h	100h	26h
DISTANCE	100m	57m	42m	30m	10m	4m	/
INTENSITY	2564cd	810cd	450cd	225cd	24cd	4cd	/
IMPACT RESISTANCE	1m						
WATER RESISTANCE	IP66						

Note: The abovementioned parameters (lab-tested by using Li-polymer rechargeable battery 3.7V/1600mAh) may vary between headlamps, batteries and environments.

*Due to the overheat protection, the runtime of the Burst mode is estimated.

HL26R 450 Lumens

Lightweight rechargeable trail running headlamp

- Uses Cree XP-G2 R5 white LED and Nichia white LEDs with a lifespan of 50,000 hours
- Built-in 1600mAh Li-polymer battery
- Micro USB charging port, USB charging cable included
- 65mm Length x 44mm Width x 37mm Height (2.6 × 1.7 × 1.5 in)
- 86 grams / 3.0 oz (including battery)
- Digitally regulated output maintains constant brightness
- Overcharging and over-discharging protection to protect the battery and circuit from damage
- Spotlight and floodlight separately controlled by two switches
- 60 degree tilt mechanism directs the beam where needed
- Made of quality PC and aluminum
- Integrated injection molded shell
- Battery level indication
- Reflective and sweat-block headband
